■ Five-character Handwriting Panel

Correcting Kanji Character Input

Example: After mistakenly inputting 喜怒衰楽 instead of 喜怒哀楽

On the handwriting panel or in the input field on the main panel, tap a character (衰). This displays up to 10

If you find the correct character among the candidates, tap it.

If you do not find the correct character, tap (書き直し) (rewrite), rewrite the character on the hand and then tap [認識]. Tapping 【書き直し】(Rewrite) while the character cells of

the handwriting panel are blank (nothing input) will delete the character currently in the input field of the main panel

Stylus Basics

When using the stylus to perform operations on the main panel avoid applying excess pressure. Excess pressure can crack the main panel.

• When using the stylus to perform an operation on the main panel support the main panel from behind with your hand.

■ To select a category and initial screen items

Press デン to display the メニュー screen.

With the stylus, tap a category tab and then the dictionary/mode yo

· This will highlight the dictionary/mode

Tap the highlighted dictionary/mode again to display its initial screen.

Instead of step 3, you also could tap【訳 / 決定】on the handwriting panel. Other operations you can perform on the main panel by

tapping with the stylus are selecting a search option, selecting a term, and selecting a headword. If a definition or explanation screen has additional

information above or below, you can drag the screen with the stylus and scroll its contents and bring other information into view

Search Functions

The following is an overview of some of the search functions

Headword Search

This is the most basic type of search. Use it when you want to look up a term in a dictionary.

Display the initial screen of a dictionary/mode

Use ▲ and ▼ to select 見出し語検索 (Headword

Enter the term you want. As you enter each character, the list of terms on the main panel s updated accordingly. When entering a

fine of headword, vou can use the following wildcard

[fine]

A single unknown character A series of multiple unknown characters of unknown

Use ▲ and ▼ to move the highlighting to a term and then press [訳 / 決定] to display its definition screen.

Sample Sentence Search/Idiom Search

You can use the following procedure to search for idioms containing a specific term when the initial screen of the mode you are in has a 成句検索 (idiom search) option.

Display the initial screen of the dictionary/mode.

Use ▲ and ▼ to select 成句検索

Select 例文検索 (sample sentence search) to search for a sample sentence.

Enter the term.

When inputting multiple words, separate them using the ampersand character (&), not spaces.
 Example: get to → get&to

Press 訳/決定 This displays a list of all idioms that contain the

Use ▲ and ▼ to move

the highlighting to an idiom and then press

訳/決定 to display detailed informatio

gáin [gèt] áccess to 0 〈物・事・人〉へ近づく,アクセス(権)を得る

Jump Search

You can use jump search to jump to another location in the same dictionary or to another dictionary

To jump in the same dictionary

When search results show items with a large arrow () or small arrow() jump symbol, press #47.

• The **This indicator**

Use the arrow keys to move the highlighting to the item you want and then press 原/決定 to jump.

■ To jump to another dictionary

While the results of a search are displayed, press • The 🎢 🎢 indicator appears and the first character on the

screen becomes highlighted. Use the arrow keys to move the highlighting to a term and then press

This displays a dictionary

Use ▲ and ▼ to select a dictionary and then press

This displays a list of candidates

Use ▲ and ▼ to move the highlighting to the item you want and then press 訳/決定 to jump.

Use the following procedure to search for a term across

Multi-dictionary Search

multiple dictionaries. On the メニュー screen, select the 便利な機能 《複数辞書アルファベットで検索》 ファイリン・グラ

(Useful Functions) tab and then select 複数辞 書アルファベットで検索 (Alphabetic Multidictionary Search).

• You also could sele 数辞書ひらがなで検索 (Hiragana Multi-diction Search) or 複数辞書漢

On the search screen that appears, enter a term.

Terms starting with the characters you have entered appear in a list on the display.

Each term also includes an indicator showing its dictionary

Use ▲ and ▼ to move the highlighting to a term and then press 家/決定 to display its definition screen.

The History feature remembers up to 1,000 terms you have looked up.

■ To view history contents

While the initial screen of a dictionary/mode is displayed, press シフト and then #360.

Use \blacktriangle and \blacktriangledown , and the \bigstar and \blacktriangledown keys to move the hiɑhliɑhtinɑ to a term and then press 訳/決定

■ To delete history data

While the initial screen of a dictionary/mode is displayed, press シフト and then きんに状業.

 This displays the history screen of the dictionary/mode The dictionary/mode does not make any difference if you are planning to delete all history data in all dictionaries,

If you are deleting one specific history entry, use and to move the highlighting to the entry you want

3 Press 灣際

Select an option.

| To do this: | Select this option: |
|---|---------------------|
| Exit the delete menu without deleting anything. | 削除しない |
| Delete only the currently highlighted item. | 反転中のヒストリーを削除(1件) |
| Delete all history data in the current dictionary/mode. | モード内のヒストリーを削除 |
| Delete all history data in all dictionaries/modes. | 全てのモードのヒストリーを削除 |

5 Press 訳/決定. This performs the operation you selected.

Useful Functions

Powerful features and functions help make dictionary look ups quicker and easier.

Viewing Idioms and Compound Expressions

成複 or 成句 indicates there is idiom and compound expression information available. On the handwriting panel, tap【成句複合語】to display it.

On the main panel, tap the idiom or compound expression you want to view and then tap【訳/決定】on the handwriting panel. This will display the meaning of the idiom or compound expression that you selected

Viewing Compound Terms

熟語 indicates there is compound term information available. On the handwriting panel, tap 【熟語】 to display it. On the main panel, tap the compound term you want to view and then tap【訳/決定】 on the handwriting panel. This will display the meaning of the compound term that you selected.

| flish/fli/ | [[派] → fishing(名), fisher(man)(名)] | → 面(Φ ~ (まれ)個別的に、また種類を | いうときは〜・es/-tz/(→ ●◆[語法])) | ● ⑥魚、魚類(◆キリスト教徒の象徴)
