Finding Information in a Dictionary

There are five basic patterns for term searches.

- 【パターン 1】 (Pattern 1):** Entering the initial characters of the term you want to find
- 【パターン 2】 (Pattern 2):** Entering all of the terms you want to find
- 【パターン 3】 (Pattern 3):** Searching step-by-step through a series of titles
- 【パターン 4】 (Pattern 4):** Narrowing down the search using multiple conditions
- 【パターン 5】 (Pattern 5):** Touching a screen item

- For details about the search patterns of each dictionary, see the 収録辞典 (Dictionary) chapter in the 取扱説明書 (User's Guide).

【パターン 1】 (Pattern 1): Entering the initial characters of the term you want to find

The displayed list of search results changes as you enter characters of the term you want to find. Example: To look up the meaning of "fine" (ジーニアス英和辞典)

- 1 Use ▲ and ▼ to highlight 見出し語検索 (Headword Search).**
- 2 Enter the term you want.**
 - As you enter each character, the list of terms on the main panel is updated accordingly.

- When entering a headword, you can use the following wildcard characters.

Character	Represents
?	A single unknown character
~	A series of multiple unknown characters of unknown length

3 Use ▲ and ▼ to move the highlighting to a term, and then press 【訳/決定】.

- This displays the definition screen.

【パターン 2】 (Pattern 2): Entering all of the terms you want to find

Enter the entire term you want to find and then press 【訳/決定】. Example: To find the phrases that use the words "get" and "to" (ジーニアス英和辞典)

- 1 Use ▲ and ▼ to highlight 成句検索 (Phrase Search).**
 - Highlight 例文検索 (Example Search) to search for an example.
- 2 Enter the term.**

 - This displays a list of all phrases that contain the terms.
- 4 Use ▲ and ▼ to move the highlighting to a phrase, and then press 【訳/決定】.**
 - This displays the detailed information screen.

【パターン 3】 (Pattern 3): Searching step-by-step through a series of titles

With some dictionaries, you need to perform successive select and execute (by pressing 【訳/決定】) operations until you arrive at the information you need. Example: To look up an English conversation expression (英会話とっさのひとこと辞典)

After displaying the initial 英会話とっさのひとこと辞典 screen, select the following: [A] 場面から探す (Search by Circumstance) → [A] 毎日の生活でつかうひとこと (Daily Life Expressions) → [A] 家のなかで (At home) → [A] 起きてから出かけるまで (Morning). This will bring you to a screen that displays the English expression for the Japanese おはよう (Good Morning).

【パターン 4】 (Pattern 4): Narrowing down the search using multiple conditions

With this type of search, you can input multiple keywords, terms, or other conditions. Example: Looking up the kanji 志 in 新漢語林 (Japanese Kanji Dictionary)

- The kanji 志 has the radical 心 (こころ), and a total of 7 strokes. This information can be used to look up the kanji.

- 1 Highlight 【単漢字を読み/画数から探す】 (Single Kanji Reading/Number of Stroke Search) and then press 【訳/決定】.**

6 Use ▲, ▼, ◀, and ▶ to highlight 志, and then press 【訳/決定】.

- This displays an explanation of the term.

【パターン 5】 (Pattern 5): Touching a screen item

You can perform a search simply by touching some screen items on the main panel screen with the stylus. Example: To look up 白川郷 (ブリタニカ国際大百科事典)

- After displaying the ブリタニカ国際大百科事典 initial screen, touch the following items on the screen: 地図から検索 (Map Search) (twice) → おもな世界遺産 (Main World Heritage Sites) (twice) → 日本 (Japan) → 白川郷 (Shirakawagoh)
- This will cause an explanation of 白川郷 (Shirakawagoh) to appear on the sub panel. (Depending on the dictionary or search method, the explanation screen may not appear on the sub panel.)
 - Pressing 【訳/決定】 will cause an explanation of 白川郷 (Shirakawagoh) to appear in the main panel.
